# Rohan Manish Kansara

Frontend Developer(React)

## Professional Summary

Skilled Frontend Web Developer proficient in JavaScript, HTML, CSS and learning ReactJs. Demonstrated ability to collaborate with cross-functional teams to understand project requirements and deliver functional and scalable web applications.

## Projects

Online Auto Part Shop [Live Demo Link](#) [Github Repo Link](#)

- HTML CSS JavaScript
- Executed a collaborative project developing an online auto part purchasing app in 6 days.
  - Implemented Firebase authentication for user login and signup, delivering a functional and responsive UI.
  - Integrated API and JSON server for dynamic data display and facilitated seamless payments via Razorpay.

boAt Clone [Live Demo Link](#) [Github Repo Link](#)

- HTML CSS JavaScript
- Contributed to a 8-day team project cloning the boAt official website for electronic items.
  - Ensured a responsive homepage with a user-friendly Hamburger menu.
  - Implemented user registration, product browsing, cart functionality, and order placement features collaboratively.

## Experience

Aarish Power | Intern  
October 2022 - July 2023

- Utilized *Solidworks* to intricately design solar power plant structures while aligning with industry standards.
- Serve as an on-site engineer, overseeing project implementation, ensuring seamless execution, and resolving technical challenges promptly.

MR Engineering | Family Business  
July 2023 - February 2024

- Handling family business due to family issues, where I am responsible for on-site installations of solar power plants and team managment.
- Additionally, I handle customer queries regarding the installed solar power plants and maintenance.
